

**DIMENSIONS: THE ROYAL OAK***Front Elevation***Container weight information**

The Royal Oak consists of one hicube 20ft container with a total weight of 4.3 tonnes.

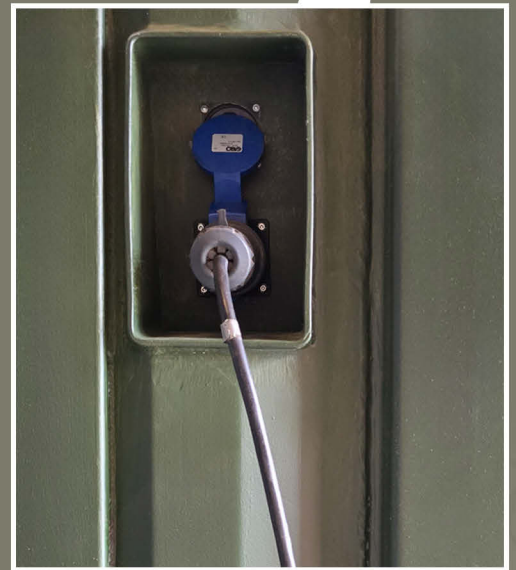

*End Elevation*

Dimensions are approximate and for guidance only

## FLOOR PLAN: THE ROYAL OAK

240v, 32 amp power supply input point and 100mm Python entry points located at the rear of the unit on the right hand side beside the door.

## CUSTOMISE IT: CUSTOM SIGNAGE DIMENSIONS

The pub is named *The Royal Oak* as standard, but it can be renamed for any occasion. The following signage locations can be designed and changed to suit any requirement. Additional artwork specifications are available on request.

Gold 3D letters - Standard font used is *Friz Quadrata*, but many other fonts can be used as these letters are CNC cut and hand painted. The total useable area of this panel is 5300 x 325mm.

Double Sided Hanging Sign  
(Printable area: 784mm x 510mm)

We also offer the option to customise any aspect of the pub's appearance. We can supply extras such as a widescreen TV, sound system and floral arrangements. In addition, we can work with your designer, marketing team or print supplier to achieve your desired result.

## ABOUT US

Pop-up Pubs are brought to you by Spacial Installations. We have many years of experience in supplying high quality set design and build to the events industry, including Goodwood Revival, Hyde Park BST, X-Factor and MTV to name a few. You can see more of our work at [www.spacial-installations.co.uk](http://www.spacial-installations.co.uk)

Three storey 'Flatiron' venue built from eighteen shipping containers at Hyde Park British Summer Time Festival.
